

# CS224n Fall 2014 Programming Assignment 1

SUNet ID: tzhang54, jiajihu  
Name: Tong Zhang, Jiaji Hu

- 1 Naive Baselines**
- 2 Better Baseline**
- 3 Rule Based**
- 4 Classifier Based**
- 6 Extra Credit**
- 7 Collaboration**

## 4.1 Overview

## 4.2 Feature Engineering

### 4.2.1 Feature Design Process

In the end, our system uses following features:

(1)

### 4.2.2 Statistics

Table 1 shows some statistics of the classifier-based system on the development set using different feature combinations:

Features	MUC F1	B3 F1
----------	--------	-------

Table 1: Results Over Feature Combinations

## 4.3 Error Analysis

## 5 Results

The results for this assignment are shown in Table 2. As you can see, .....

Algorithm	MUC			Pre
	Prec	Recall	F1	
Rule-based	0	0	0	0
Classifier-based	0	0	0	0

Table 2: Results for all systems
